- February 28th- Wax Museum
- March 8th- Western Day Flapjack Breakfast

RARE DISEASE DAY®

Rare Disease Day is the designated day each year to bring awareness to anyone living with a rare disorder. Our school has decided to participate by asking each student to bring in \$1.00 that will be donated to the Dup15q Alliance – a non-profit organization for a rare disease. On Rare Disease Day, February, 28th, students are encouraged to wear blue clothing and mismatched socks.

For more information on Dup15q Syndrome visit: www.dup15q.org.

6 Practical Ways We Can Build Godly Character in Our Children

The third practical way to build Godly Character in our children is to get God's word into their hearts and minds. Godly character begins on the inside with a close relationship with the Lord. It is important we teach God's Word purposefully. If their hearts and minds are connected with the Lord and His Word then they start thinking more His thoughts. It has been said that thoughts lead to Actions and Actions develop into habits, which grow into character. At Kardia we begin our day with worship, prayer, and scripture and we end our day with prayer. Each day God's word is shared in class and once week the children attend a Bible Class with Mrs. Clark. Families can access the same lessons on-line and encourage their children to read God's Word every day. We can partner in encouraging our children to memorize scripture and sing scripture songs. Please let me know (Kim@kca.life) if you have had a chance to log into DeepRoots, our bible curriculum.
